

Join us for an EdgeWave Secure Content Management Lunch & Learn Qualify for a \$100 AMEX Gift Card!

As Internet-based threats continue to increase, your costs for deploying, maintaining and renewing Web and email filtering solutions can also rise. That's where EdgeWave distinguishes itself as the true value leader for Secure Content Management solutions.

iPrism Web Filter is the award-winning Internet filtering solution that secures organizations from Internet-based threats and inappropriate content at the network perimeter, while it helps enforce acceptable use and security policies.

EdgeWave Email Security delivers superior email protection that insures the accurate and safe delivery of all your business-critical email while protecting users and your network from spam, malware and other email-borne threats.

Learn how to protect your network, maximize employee productivity and stay ahead of emerging threats.
